# SITE STAIR TOWERS

Auxiliary element that facilitates safe access and movement of employees in the work site.

The Alsina access ladder, with 1.57 x 2.57 m base, has various sections allowing access to even and uneven height ranges, braced to structural elements.

CONNECTION USING  
MULTIDIRECTIONAL ROSETTE

## characteristics

- Multidirectional connection technique (8 connections in an angle) allowing quick and easy assembly.
- Light components easy to store on site.
- Highly resistant and durable materials (steel and aluminum).
- Suitable for its hoisting or rolling.
