

ALISAN PLUS PROP

The new Alsina props with integrated safety system.

Alsina

■ Description

The Alsina Alisan Plus are props with an extension device according to the standard UNE180201 with integrated safety system. They serve as vertical props for temporary structures.

■ Components and accessories

- Tripods for the assembly.

■ Compatible

- Any system of roofs up to 4 meters high.

■ Frequent uses

- Props for supporting slabs and hanging beams.
- Ideal for residential or commercial construction, with slabs from 100 mm to 500 mm thick.

■ Properties

- Prop in compliance with UNE 180201 standard.
- Failsafe. For safety reasons, the Alsina props come equipped with a safety anti-separation device that prevents the tube from coming loose and falling.
- 10 cm of clearance with the prop closed as a safety measure against hands getting crushed.
- Long-life galvanized structure.
- Light weight in relation to its high load capacity.
- Enables optimizing the number of props on site.
- Compatible with all slab systems.

Prop	Height (m) maximum / minimum	Weight (Kg)	Load (kN)
3 m	3,0 / 1,8	9,30 Kg	15,0 / 22,5
4 m	4,0 / 2,3	14,20 Kg	15,0 / 22,5
