

CORBEL 750 KN

High-capacity support corbel,
up to 750 kN.

Alsina

■ Description

The 75 Tn support corbel is a support system capable of transmitting vertical loads to the pier shaft by directly resting on it. Ideal for lintels, bridge piers and high slabs without the need for scaffolding towers.

■ Compatible

- Horizontal Multiform.

■ Common Uses

- High slabs.
- Bridge piers.
- Lintels.

■ Properties

- Maximum use load: 750 kN.
- Minimum concrete capacity: 25 N/mm².
- Maximum reaction on lower support: 263 kN.
- The 75 TN support corbels are equipped with two hoisting points located on the upper support plate.
