

MULTIFORM TABLE

Pre-assembled table for higher speed and production.

Alsina

■ Description

Highly versatile horizontal formwork system adaptable to a great variety of shapes for the execution of slabs. It is a modular system which, through the combination of the metal beam and the wooden beam, provides a compact and stable table. The versatility in uses along with the shoring possibilities adapts the system to all situations.

■ Components and accessories

- Crane hook for vertical transport.
- Horizontal transport accessory for stripping and transport.
- Built-in safety features to protect workers on site.

■ Compatible

- Alsina shoring system.
- Alsina telescopic props.
- Alsina props with brace frame.

■ Properties

- Availability of multiple measurements thanks to the sizes of its components.
- High productivity on site and with "in situ" assembly thanks to the ease of anchoring between the elements.
- Different shoring possibilities depending on load and height: shoring system, prop with folding or fixed head, prop with brace frame.
- It incorporates safety elements to protect workers on site.
- Cantilever tables for the slab edge.
- Possibility to choose the quality of the lining based on need.
- Long service life: The vast majority of its pieces are treated with epoxy paint, while the other parts are zinc plated.

■ Frequent uses

- All kinds of construction.
