

# TC360 HEAVY DUTY TOWER **Alsina**

High load capacity system  
for shoring civil works structures.

---

## ■ Description

MF shoring system is a modular shoring system with a high load capacity designed mainly for shoring civil works structures. The main advantage of the system is that it shares many pieces from the MF system that makes the system extremely versatile. It can solve almost any solution without especial pieces only sharing standard pieces. All the solutions contains the MF beam. Combining the different lengths with all the accessories, allows the system the capacity to solve as mentioned previously.

## ■ Frequent uses

- Civil works high loads.

## ■ Properties

- Few parts allows different shoring configurations.
