

STEEL ROUND COLUMN

Connectable circular panel
with straight panel clamp.

Alsina

■ Description

The Steel Round Columns allow for the creation of round columns or shielded columns with semicircular ends. Likewise, when the Alisply profile is on the ends, the joints are made with the GR-2 Clamp. This characteristic makes it totally compatible with the Alisply product range and offers quick and easy assembly.

■ Components and accessories

- Closes with Alisply Clamps or M19X199 Bolts plus Alu/Alis Nuts.
- Incorporates Alu/Alis Crane Hook.

■ Compatible

- Alisply Walls.
- Alisply Universal.

■ Properties

- The metal panels support a maximum pressure of 2100 lbf/sq ft.
- Made of sheet metal with reinforcing cross beams.
- Available sizes: Diameters from 8" to 6'-6 3/4", with intervals of 2" up to 3'-3 1/2" in diameter; and with intervals of 4" up to 6'-6 3/4" in diameter.
- Concrete finish with smooth surface.
- Speed and ease in assembling and dismantling formwork.

■ Frequent uses

- Especially useful for columns in parking garages and civil works.
